PARKING MANAGEMENT SOFTWARE
by EDC Corporation

Event Management

The **AIMS Event System** offers complete control of your event parking needs including setup and tracking of events, pre-payment of event permits online, and real-time event permit sales in the field. AIMS Event Management and the AIMS Web Event Module provide straight-forward, well thought out processes for your parking office, event patrons, and lot attendants. AIMS will make managing your next event's parking a pain free experience.

Event Management Key Features Include:

- Manage your special events including billing contact, assigned resources, employees, notes
- Assign event permit types and rates
- View permits sold/assigned to the event
- Robust Reporting
- Customer can pre-purchase and print their event permit
- AIMS Mobile cash & credit card sales
- Real-time validation of pre-printed customer permits
